rock lead basics pdf - Rock
climbing is an activity in which
participants climb up, down or
across natural rock formations or
artificial rock walls. The goal is to
reach the summit of a formation
or the endpoint of a usually
pre-defined route without falling.

Climbing Guidebook
Lead climbing is a climbing
technique used to ascend a route.
This technique is predominantly
used in rock climbing and
involves a lead climber attaching
themselves to a length of dynamic
(elastic) climbing rope and
ascending a route while
periodically attaching protection
(quickdraws or traditional
protection) to the face of the route
and ... Tue, 19 Jun 2012 08:39:00
